

Child Observation

Parent Education

This course provides students (parents) the opportunity to study the preschool child (toddler thru preschool) through participation, observation and discussion. It emphasizes recognition of the prime role of the parent as teacher of the child and offers specific techniques to fulfill those roles. The growth, development and needs of preschoolers are covered through a shared creative experience of music, art, stories, and play. The class provides age appropriate activities so that your child can practice emerging skills while socializing with other children and adults. As a parent of a young child, you will have an opportunity to meet other parents to share knowledge, experience, support and friendship. Parents and their children participate. No. Reg. Fee. Class fee: \$10, Student Body: \$2. Instructor: Erika Zavala
